Arrowhead Pharmaceuticals to Host 2024 Summer Series of R&D Webinars

April 26, 2024

PASADENA, Calif.--(BUSINESS WIRE)--Apr. 26, 2024-- Arrowhead Pharmaceuticals, Inc. (NASDAQ: ARWR) today announced its plan to host a 2024 Summer Series of R&D webinars that highlight multiple clinical stage RNA interference (RNAi) based medicines that utilize the company's proprietary Targeted RNAi Molecule (TRiM™) platform. Each webinar in the Summer Series will focus on a specific therapeutic area and will feature presentations by Arrowhead team members about the company's clinical candidates and external key opinion leaders, who will discuss the respective disease areas and treatment landscapes.

2024 Summer Series Schedule:

Muscular – ARO-DUX4 and ARO-DM1

Date: May 23, 2024
Time: 2:00 pm ET

Cardiometabolic – Plozasiran and zodasiran

Date: June 25, 2024
Time: TBD

Pulmonary – ARO-RAGE, ARO-MUC5AC, ARO-MMP7

Date: July 16, 2024
Time: TBD

Obesity/Metabolic – ARO-INHBE and one additional new program to be disclosed

Date: August 15, 2024
Time: TBD

Central Nervous System – Platform and pipeline updates

Date: September 25, 2024
Time: TBD

Christopher Anzalone, Ph.D., President and CEO at Arrowhead, said: "Arrowhead has made significant progress this year with our pipeline. We now have 14 investigational RNAi-based medicines in the clinic that leverage Arrowhead's proprietary TRiM ™ platform, four of which are in late-stage development. We are excited to launch the 2024 Summer Series of R&D webinars, which will provide an overview of the respective treatment landscapes, the biological rationale and preclinical data supporting each target, and our clinical development strategy for each pipeline program to be highlighted."

Each event will be approximately 90 minutes in duration with live webcasts and replays available on the Events and Presentations page under the Investors section of the Arrowhead website. Registration links and additional details regarding times, agendas, and speakers will be provided on the Arrowhead website and social media channels prior to each event.

About Arrowhead Pharmaceuticals

Arrowhead Pharmaceuticals develops medicines that treat intractable diseases by silencing the genes that cause them. Using a broad portfolio of RNA chemistries and efficient modes of delivery, Arrowhead therapies trigger the RNA interference mechanism to induce rapid, deep, and durable knockdown of target genes. RNA interference, or RNAi, is a mechanism present in living cells that inhibits the expression of a specific gene, thereby affecting the production of a specific protein. Arrowhead's RNAi-based therapeutics leverage this natural pathway of gene silencing.

Safe Harbor Statement under the Private Securities Litigation Reform Act:

This news release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Any statements contained in this release except for historical information may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "hope," "intend," "plan," "project," "could," "estimate," "continue," "target," "forecast" or "continue" or the negative of these words or other variations thereof or comparable terminology are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, trends in our business, expectations for our product pipeline or product candidates, including anticipated regulatory submissions and clinical program results, prospects or benefits of our collaborations with other companies, or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements include, but are not limited to, statements about the initiation, timing, progress and results of our preclinical studies and clinical trials, and our research and development programs; our expectations regarding the potential benefits of the partnership, licensing and/or collaboration arrangements and other strategic arrangements and transactions we have entered into or may enter into in the future; our beliefs and expectations regarding milestone, royalty or other payments that could be due to or from third parties under existing agreements; and our estimates regarding future revenues, research and development expenses, capital requirements and payments to third parties. These statements are based upon our current expectations and speak only as of the date hereof. Our actual results may differ materially and adversely from those expressed in any forward-looking statements as a result of numerous factors and uncertainties, including the impact of the ongoing COVID-19 pandemic on our business, the safety and efficacy of our product candidates, decisions of regulatory authorities and the timing thereof, the duration and impact of regulatory delays in our clinical programs, our ability to finance our operations, the likelihood and timing of the receipt of future milestone

and licensing fees, the future success of our scientific studies, our ability to successfully develop and commercialize drug candidates, the timing for starting and completing clinical trials, rapid technological change in our markets, the enforcement of our intellectual property rights, and the other risks and uncertainties described in our most recent Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q and other documents filed with the Securities and Exchange Commission from time to time. We assume no obligation to update or revise forward-looking statements to reflect new events or circumstances.
