Arrowhead Pharmaceuticals to Participate in Upcoming May 2024 Conferences

April 29, 2024

PASADENA, Calif.--(BUSINESS WIRE)--Apr. 29, 2024-- Arrowhead Pharmaceuticals, Inc. (NASDAQ: ARWR) today announced that it is scheduled to participate in the following upcoming events:

2024 RBC Capital Markets Global Healthcare Conference – May 14-15, 2024

Type: Fireside Chat Presentation
Date/Time: May 14, 2024, 9:30 a.m. EDT

BofA Securities 2024 Healthcare Conference – May 13-16, 2024

Type: Fireside Chat Presentation
Date/Time: May 16, 2024, 8:40 a.m. PDT

TIDES USA 2024 – May 14-17, 2024

Title: **Preclinical Profile of ARO-SOD1, an siRNA Therapy for SOD1-ALS**
Date/Time: May 16, 2024, 3:00 p.m. EDT
Presenter: Christine Esau, Ph.D.
Session: Oligonucleotide Chemistry, Mechanisms and Preclinical

Title: **Novel TRiM™ Platform for Delivery of RNAi Therapeutics to Adipose Tissue**
Date/Time: May 17, 2024, 9:00 a.m. EDT
Presenter: Tao Pei, Ph.D.
Session: Delivery of Macromolecules

American Thoracic Society (ATS) 2024 International Conference – May 17-22, 2024

Title: **A First-in-Human Study of ARO-RAGE, a Novel Inhaled RNA-Interference Therapy for Asthma**
Date/Time: May 19, 2024, 11:30 a.m. PDT
Type: Late-Breaking Poster

Title: **A lung-targeted therapeutic siRNA against highly conserved viral M1 mRNAs effectively limits highly pathogenic influenza A infection in mice**
Date/Time: May 20, 2024, 11:30 a.m. PDT
Type: Poster

Title: **Lung-targeted RNAi molecules silence human TSLP expression in PCLS cultures and humanized mice and suppress pulmonary allergic inflammation**
Date/Time: May 20, 2024, 11:30 a.m. PDT
Type: Poster

37th International Conference on Antiviral Research (ICAR2024) – May 20-24, 2024

Title: **Liver-targeted therapeutic siRNAs against highly conserved yellow fever virus genomic sequences effectively limit infection and mortality in a hamster model**
Date/Time: May 22, 2024, 10:45 a.m. AEST
Presenter: Justin Julander, Ph.D.
Session: Lipid Lowering via Novel Pathways

European Atherosclerosis Society (EAS) 92nd Congress – May 26-29, 2024

Title: **PLOZASIRAN (ARO-APOC3), DECREASES APOC3 AND TRIGLYCERIDES (TG) IN PATIENTS WITH MIXED DYSLIPIDEMIA: MUIR FINAL RESULTS**
Date/Time: May 28, 2024, 12:04 p.m. CEST
Presenter: Christie M Ballantyne, M.D.
Session: New Therapeutics

Title: **PLOZASIRAN (ARO-APOC3), AN INVESTIGATIONAL RNAI THERAPEUTIC, DEMONSTRATES PROFOUND AND DURABLE REDUCTIONS IN APOC-3 AND TRIGLYCERIDES (TG) IN PATIENTS WITH SEVERE HYPERTRIGLYCERIDEMIA (SHTG), SHASTA-2 FINAL RESULTS**
Date/Time: May 28, 2024, 2:49 p.m. CEST
Presenter: Daniel Gaudet, M.D., Ph.D.
Session: SaaG Session: The Enigmas of TG-rich Lipoproteins

Title: **ZODASIRAN SILENCES HEPATIC ANGPTL3 LEADING TO DEEP AND DURABLE REDUCTIONS IN ATHEROGENIC LIPIDS AND LIPOPROTEINS IN MIXED DYSLIPIDEMIA PATIENTS: FINAL RESULTS FROM ARCHES-2, DOUBLE-BLIND PERIOD**
Date/Time: May 29, 2024, 11:30 a.m. CEST
Presenter: Robert Rosenson, M.D.
Session: Late Breaker Session 2: New Therapeutic Agents

2024 National Lipid Association (NLA) Scientific Sessions – May 30 – June 2, 2024

Title: **ENCORE - PLOZASIRAN (ARO-APOC3), DECREASES APOC3 AND TRIGLYCERIDES (TG) IN PATIENTS WITH MIXED DYSLIPIDEMIA: MUIR FINAL RESULTS**
Date/Time: May 31, 2024, 2:30 p.m. PDT
Presenter: Christie M Ballantyne, M.D.
Session: Poster

Title: **ENCORE - PLOZASIRAN (ARO-APOC3), AN INVESTIGATIONAL RNAI THERAPEUTIC, DEMONSTRATES PROFOUND AND DURABLE REDUCTIONS IN APOC-3 AND TRIGLYCERIDES (TG) IN PATIENTS WITH SEVERE HYPERTRIGLYCERIDEMIA (SHTG), SHASTA-2 FINAL RESULTS**
Date/Time: June 1, 2024, 12:20 p.m. PDT
Presenter: Christie M Ballantyne, M.D.
Session: Late Breaker

Presentation materials may be accessed on the Events and Presentations page under the Investors section of the Arrowhead website.

About Arrowhead Pharmaceuticals

Arrowhead Pharmaceuticals develops medicines that treat intractable diseases by silencing the genes that cause them. Using a broad portfolio of RNA chemistries and efficient modes of delivery, Arrowhead therapies trigger the RNA interference mechanism to induce rapid, deep, and durable knockdown of target genes. RNA interference, or RNAi, is a mechanism present in living cells that inhibits the expression of a specific gene, thereby affecting the production of a specific protein. Arrowhead's RNAi-based therapeutics leverage this natural pathway of gene silencing.

Safe Harbor Statement under the Private Securities Litigation Reform Act:

This news release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Any statements contained in this release except for historical information may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "hope," "intend," "plan," "project," "could," "estimate," "continue," "target," "forecast" or "continue" or the negative of these words or other variations thereof or comparable terminology are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, trends in our business, expectations for our product pipeline or product candidates, including anticipated regulatory submissions and clinical program results, prospects or benefits of our collaborations with other companies, or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements include, but are not limited to, statements about the initiation, timing, progress and results of our preclinical studies and clinical trials, and our research and development programs; our expectations regarding the potential benefits of the partnership, licensing and/or collaboration arrangements and other strategic arrangements and transactions we have entered into or may enter into in the future; our beliefs and expectations regarding milestone, royalty or other payments that could be due to or from third parties under existing agreements; and our estimates regarding future revenues, research and development expenses, capital requirements and payments to third parties. These statements are based upon our current expectations and speak only as of the date hereof. Our actual results may differ materially and adversely from those expressed in any forward-looking statements as a result of numerous factors and uncertainties, including the impact of the ongoing COVID-19 pandemic on our business, the safety and efficacy of our product candidates, decisions of regulatory authorities and the timing thereof, the duration and impact of regulatory delays in our clinical programs, our ability to finance our operations, the likelihood and timing of the receipt of future milestone and licensing fees, the future success of our scientific studies, our ability to successfully develop and commercialize drug candidates, the timing for starting and completing clinical trials, rapid technological change in our markets, the enforcement of our intellectual property rights, and the other risks and uncertainties described in our most recent Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q and other documents filed with the Securities and Exchange Commission from time to time. We assume no obligation to update or revise forward-looking statements to reflect new events or circumstances.
