

Arrowhead Pharmaceuticals to Host a Webinar on its Cardiometabolic Pipeline as Part I of the 2026 Summer Series of R&D Webinars

June 18, 2026

PASADENA, Calif.--(BUSINESS WIRE)--Jun. 18, 2026-- Arrowhead Pharmaceuticals, Inc. (NASDAQ: ARWR) today announced its plan to host a 2026 Summer Series of R&D webinars that highlight multiple clinical stage RNA interference (RNAi) based medicines that utilize the company's proprietary Targeted RNAi Molecule (TRiM™) platform. Each webinar in the Summer Series will focus on a specific therapeutic area and will feature presentations by Arrowhead team members about the company's clinical candidates and external key opinion leaders, who will discuss the respective disease areas and treatment landscapes.

Part I of Arrowhead's 2026 Summer Series of R&D Webinars will focus on Arrowhead's cardiometabolic pipeline and will be held on June 29, 2026, at 11:30 AM EDT. The webinar will feature a presentation from Steven Nissen, M.D., Chief Academic Officer for the Heart and Vascular Institute at the Cleveland Clinic, the Lewis and Patricia Dickey Chair in Cardiovascular Medicine and Professor of Medicine at the Lerner College of Medicine. The webinar will also feature presentations from Arrowhead management.

The agenda for Part I – Cardiometabolic is listed below:

Overview of Cardiometabolic Pipeline	Vince Anzalone, CFA, Arrowhead
Arrowhead's Technology and R&D Process	James Hamilton, M.D., MBA, Arrowhead
Plozasiran (APOC3)	Jennifer Hellowell, M.D., Arrowhead
Zodasiran (ANGPTL3)	Jennifer Hellowell, M.D.
ARO-DIMER-PA (PCSK9/APOC3)	James Hamilton, M.D., MBA
Mixed Hyperlipidemia & ASCVD Treatment Landscape	Steven Nissen, M.D., Cleveland Clinic
Q&A	Panel

Each event in the 2026 Summer Series of R&D Webinars will be approximately 60-90 minutes in duration with live webcasts and replays available on the [Events and Presentations](#) page under the Investors section of the Arrowhead website. Registration links and additional details regarding times, agendas, and speakers will be provided on the Arrowhead website and social media channels prior to each event.

About Arrowhead Pharmaceuticals

Arrowhead Pharmaceuticals (NASDAQ: ARWR) is a commercial-stage pharmaceutical company developing medicines that treat intractable diseases by silencing the genes that cause them, harnessing the natural RNA interference (RNAi) mechanism. The company has built a broad portfolio of clinical and commercial RNAi therapeutics through its industry-leading targeted RNAi molecule (TRiM™) platform, which can precisely silence genes in a wide range of cell types, including liver, lung, muscle, adipose, and central nervous system tissue. At Arrowhead, we rapidly advance potential best- and first-in-class RNAi treatments for diseases with significant unmet medical need, because every day matters to the patients we serve.

Safe Harbor Statement under the Private Securities Litigation Reform Act:

This news release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Any statements contained in this release except for historical information may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "hope," "intend," "plan," "project," "could," "estimate," "continue," "target," "forecast" or "continue" or the negative of these words or other variations thereof or comparable terminology are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, trends in our business, expectations for our product pipeline or product candidates, including anticipated regulatory submissions and clinical program results, prospects or benefits of our collaborations with other companies, or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements include, but are not limited to, statements about the initiation, timing, progress and results of our preclinical studies and clinical trials, and our research and development programs; our expectations regarding the potential benefits of the partnership, licensing and/or collaboration arrangements and other strategic arrangements and transactions we have entered into or may enter into in the future; our beliefs and expectations regarding milestone, royalty or other payments that could be due to or from third parties under existing agreements; and our estimates regarding future revenues, research and development expenses, capital requirements and payments to third parties. These statements are based upon our current expectations and speak only as of the date hereof. Our actual results may differ materially and adversely from those expressed in any forward-looking statements as a result of numerous factors and uncertainties, including the safety and efficacy of our product candidates, decisions of regulatory authorities and the timing thereof, the duration and impact of regulatory delays in our clinical programs, our ability to finance our operations, the likelihood and timing of the receipt of future milestone and licensing fees, the future success of our scientific studies, our ability to successfully develop and commercialize drug candidates, the timing for starting and completing clinical trials, rapid technological change in our markets, the enforcement of our intellectual property rights, and the other risks and uncertainties described in our most recent Annual Report on Form 10-K, subsequent Quarterly Reports on Form 10-Q and other documents filed with the Securities and Exchange Commission from time to time. We assume no obligation to update or revise forward-looking statements to reflect new events or circumstances.
